Dear Sir:

This is in response to the office action dated 12/06/2004 and therefore it is being submitted as timely.

In the office action, the Examiner identified a restriction requirement between claims 1-13 and 15 in class 1 drawn to a pollution control device and claim 14 in class 2 drawn to a method of servicing a pollution control device.

The applicant elects to proceed with the invention of class 1 without prejudice.

Respectfully submitted,
